

Washtenaw Community College

July 26, 2001

Andreas Hug
OE 102
Washtenaw Community College

Dear Andreas,

The Institutional Research Department conducted a survey shortly after graduation asking graduates several questions that would shed light on their experiences at Washtenaw Community College.

Many students indicated you were an important catalyst in contributing to their educational success. The dedication you demonstrate to your subject matter obviously means a great deal to students in your classes. I am forwarding a sample of the survey comments that were collected.

- Offered encouragement, recommendations, patience, problem solving skills.

On behalf of our students, let me say "thank you" for the excellent work that you do at the College. Your contribution to student success is vital to WCC students and to their educational development.

Sincerely,

Larry Whitworth
President
